### SWARTLAND CUVÉE BRUT NV ~ SWARTLAND R 35 / R 210

Stones have no flavour that they impart on wine - they simply make the soil less. If there is less soil the vine produces more con-centrated fruit, the same happens with old vines, also when vines are planted in high density. As the rock opposes the vine so does a nearby plant; and age limit growth and crop. Life from Stone has the good fortune to have all these 3 concentrating factors in its favour — thus the unmatched complexity of a great wine.
